## **DETAILED ACTION**

### ***Response to Arguments***

#### ***Terminal Disclaimer***

The terminal disclaimer filed on Feb. 1, 2008 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent Application No. 09/924,094 and U.S. Patent Nos. 6,907,189; 7,177,527; and 7,184,651 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Applicant's arguments with respect to claim 1-21 have been considered but are moot in view of the new ground(s) of rejection.

#### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Art Unit: 2621

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

**Claim1-21** provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim1-21 of copending Application No. 12/028254. Although the conflicting claims are not identical, they are not patentably distinct from each other because the recording and /or reproducing apparatus of the instant application could perform the copending application method of reproducing data from storage medium.

**Claim1-3, and 7-13** provisionally rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim1-10 of copending Application No. 12/028287. Although the conflicting claims are not identical, they are not patentably distinct from each other because the recording and /or reproducing apparatus of the instant application could produce the computer readable storage medium of the copending application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
